DCL updates Client Supply Order Form to reflect changes in available supplies

Changes in testing supplies have prompted DCL to update our Client Supply Order Form to better reflect the supplies that are currently available. Clients should begin using the master copy provided with this Laboratory Bulletin and discard any previous versions of the form. A list of the changes appears below.

Please direct any questions regarding the form to DCL Client Services at (317) 874-1334 or toll free at (866) 874-1334.

Supply Order Form Changes

Forms and Brochures

- Added the “NuSwab™ Requisition”

Molecular Pathology & Microbiology

- Changed the “Universal Viral Transport” to “UTM-RT Viral Transport”
- Removed the “VCM Transport Tube” – clients should now order the UTM-RT Viral Transport instead
- Added the “Orange Top Double Swab in Amies Agar Gel” for fungal cultures other than yeast
- Changed the “SAF Fixative” to “Pink and Gray Para-Pak for O&P Feces”
- Added “Regan-Lowe Medium” for B. pertussis Culture
- Condensed the various items required for blood culture collection to “Blood Culture Collection Kit – Adult” and “Blood Culture Collection Kit – Pediatric”

Blood Collection

- Changed the description for the SST to Gold-top
- Added “Solution A” and “Solution B” options to Yellow-top ACD Tube

Miscellaneous

- Removed the 50g and 100g Lemon-Lime flavored Glucose Tolerance Beverages, which are no longer available to DCL.
